Expert in IT Project Management, Artificial Intelligence, and Data Analysis

Expert in IT project management and holder of a Master's degree in Artificial Intelligence from Hanyang University in South Korea. With solid experience in digital transformation and data analysis, I am proficient in tools such as Python, SPSS, and Power BI for advanced analysis and strategic decision-making. Currently serving as an IT Engineer at the Ministry of Public Service and Administrative Reform and as an Adjunct Lecturer at the University Institute of Technology at the University of Douala, I combine my technical and academic skills to train the next generation of professionals in computer science and artificial intelligence. Passionate about solving complex problems, I am committed to leading innovative projects focused on AI, data analysis, and the optimization of administrative processes.
